HOSPITALFLOWAI

System architecture / local-first digital twin

REACTIVE CONTROL FEEDBACK

SYNTHETIC DATA ONLY | NO LIVE CLINICAL SYSTEMS | REPRODUCIBLE FIXED SEED

MODEL TRAINING (OFFLINE)

98 generated days -> chronological 77 / 21 split

Six Fourier / weekend features; ridge regression

Holdout MAE: 3.215 vs mean baseline: 4.138

Benchmark ONLY on toy synthetic demand

SIMULATION VALIDATION

Seeded replay and population conservation

Enforced resource capacity / independent RNG

Search / timestamped journey tests

Clinical accuracy NOT established

SUBMISSION ARTIFACTS

README + documented source + MIT license

Architecture PDF + presentation PPTX / PDF

Standalone HTML and demo recording guide

Team / video links supplied after upload
